What We Offer...

Corporate-Commercial Services

- **Offices & Corporate Floors:**

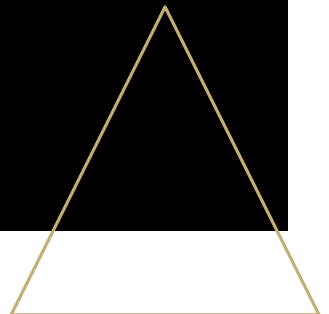

We provide comprehensive real estate consultancy services to the companies looking to set up their facility. Keeping vital factors like nature of the business, requirement of space, and other corporate in the vicinity, we effectively guide our valuable clients in short listing prospective sites for their office.

- **Corporate Projects:**

Looking for a new commercial investment, Our Commercial team is well equipped with the best consultancy services, who provide you with the in depth analysis and comparison of ongoing commercial projects and investment potential.

- **Rental-Investments/Sale:**

While serving you with Transitory Leasing services, we assist you analysing your requirement and advice you accordingly with the desired budget, location, facilities and convenience etc.

Commercial & Residential Services

- **Shopping/Commercial Malls:**

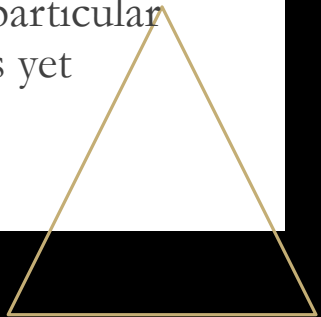

The Dubai's organised retail market is undergoing a phenomenal transformation with rapidly changing trends. Our strong tie-ups with the country's top developers prove advantageous for our clients as efficient and quick negotiations are ensured.

- **Retail Stores & Showrooms:**

The location of the retail store or outlet has a major bearing on the profitability of the store as it directly influences the number of customer footfalls. The entrepreneur must be sensitive to the target market, their buying patterns, neighbourhood brands, convenient accessibility and competitive strategy as these factors play a crucial role in determining the location of the retail outlet. Through our specialised consultancy services and analysis of competitors and future trends, we guide our clients in making the right decision as per their needs and objectives.

- **Residential Project Investment/ Sale:**

Right Investment Consultation.....to help you multiply your wealth. We provide our clients with specialised and efficient service encompassing reports and analysis on markets, details of developers, pros and cons of particular sites, future trends and investment security. we ensure that our customer investments render high returns yet maintaining them safe and secure, with a high level of transparency in all levels of transactions.
